

G. Pulla Reddy Engineering College (Autonomous) : Kurnool

Date : 31-08-2020

Instruction for opting Online / Offline mode
for B Tech VIII Sem Sessional Examination by Regular Students

B. Tech VIII semester Second Sessional Examinations are scheduled to commence from 7th September 2020. Due to Covid-19 pandemic, few students expressed concern and represented to conduct the examination online.

Regular B.Tech VIII semester students are instructed to exercise their preference (Online/Offline) for writing the examination before 9:00 AM 1st September 2020. The option exercised by them stands final. Students failing to exercise the option shall be deemed that they prefer to write the exam in off-line mode.

For the Students willing to write the sessional examination in offline mode, the test centre opted by them earlier will be allotted. No changes in the test centre will be permitted

Students willing to write the sessional examination in online mode shall note the following:

The question paper for offline and online mode shall be same and there is no change in the question paper pattern.

Students shall write the answers on plain white papers and they shall mail the scanned copies using suitable software immediately after the examination. The details will be communicated later.

Students must be in possession of Laptop/Desktop with Camera and microphone or a high end smart phone.

Students shall be thoroughly monitored by an invigilator through online and any student resorting to unfair means (switching off the camera or leaving the seat or referring to any material or delay in mailing of the answer scripts, etc) will be disqualified from writing the examination and will be treated as a malpractice case. The answer scripts of such candidates will not be evaluated.

Students must have high speed stable internet connection and power back up to appear for examination in online mode. The student will be treated as absent for the examination for whatsoever reason and the college bears no responsibility for poor internet connection and power failures.

PRINCIPAL
